

APEL CO., LTD. JAPAN

AP-120

APEL Photoelectric colorimeter

MADE IN JAPAN

Compact Photoelectric Colorimeter

**State-of-the-Art
Colorimeter**

Compact and simple

Built-in Fliter

Five filters are built-in.

Auto-Zero by microprocessor control

T=0% and T=100% are automatically set with just a touch of key.

Compact & light weight

AP-120's foot print is small and weights only 0.7kg.

Square and round cuvettes useable

In addition to square cuvettes, round cuvettes can also be used without adapters.

No lamp replacement

AP-120 does not need a lamp replacement thanks to the LED light source.

**Stray light
Free**

Cover prevents light penetration from outside.
