- Manufacturer: Thermosafe - Model 460 - Unit: Each
- Insta-Ice Dry Ice Machines, ThermoSafe Brands

Product Information:

Insta-Ice Dry Ice Machines, ThermoSafe Brands - Model 460 - Each : Lightweight, convenient and economical. Insta-Ice machines provide dry ice for low temperature cooling in alcohol baths or low temperature maintenance during shipment of specimens and samples. Can be used to preserve tissue samples and to reduce temperature for microtomy and histology work. Also highly effective in the chemical, metal fabrication and food processing industries. Easy-to-use. Simply attach the Insta-Ice machine to a liquid CO2 cylinder equipped with a syphon and have solid, dry ice blocks in just 60 seconds. Using a 50lb. CO2 cylinder at room temperature, 35742-450 can make 9 to 11 blocks; 35742-472 can make 6 to 7 blocks; and 15714-475 can make 3 blocks.
