MAC-550EX

Microprocessor-Controlled Fully Automatic Autoclave Designed for Enhanced Safety with Slide Lock System. The Mac-550-EX operates automatically from water supply to drying and completion, and provides the benefit of a microprocessor controlled automatic internal steam temperature control system.

**Specifications :**

Temperature control range	800C - 1410C
Chamber inner dimensions	Ø228 x 338 mm
Power supply	220V / 60Hz
Net weight	approx. 28 kg
Outer dimensions	470(W)x470.5(D)x379(H) mm

**Features:**

- Microprocessor-controlled sterilization.
- Standard setting for sterilization temperature, sterilization time and drying time.
- Easy-to-read digital display.
- Sterilization of liquid.
- Process monitor for quick and easy confirmation.
