

B-Series Precision Incubator. **COMPANY : BINDER, GERMANY.**

The Precision Incubator of Binder have been manufactured and developed for several years by means of modern production facilities. New ideas concerning the heating system (DBP 3329855), linked with a robust construction of high quality and all models are constructed according to the latest VDE-regulations. The working chambers of all BINDER products are made of stainless steel., therefore also suitable for heavy loads.

Technical details :

Ref:	1849/3	1850/5	1853
Model	B28	B34	B53
Interior Dimension(WxHxD)mm	400x280x250	480x250x280	600x400x480
Exterior Dimension(WxHxD)mm	580x402x425	720x440x360	660x580x495
Volume approx.	28 Ltr.	34 Ltr	53 Ltr.
Number of shelves	2/4	2/5	2/6
Weight Per shelves	10 kg.	15/30 kg	15/40 kg
Weight net kg	23	24	33
Nominal Voltage	230V / 50 - 60 Hz		
Power consumption. w	250	250	300

Equipments :

- On/Off-switch illuminated.
- Operating mode selector.
- Thermostat with brake.
- Pilot lamp.
- Safety devices according to DIN12880
