41-160

MA Attachable mech. stage

LS-3VC-1&2 41-250
41-260

VC Built-in coaxial mech. stage

GENERAL FEATURES:

Tube: Monocular tube, inclined 45°, rotation 360°, interchangeable with other tubes.

Stages: 41-250(LS-3VC-1) Built-in coaxial drive
41-260(LS-3VC-2) mechanical stage VC.

41-150(LS-3AC-1) Attachable graduated
41-160(LS-3AC-2) mechanical stage MA.

41-850(LS-3-1) Plain stage with two
41-860(LS-3-2) stage clips, drilled to

receive attachable mechanical stage MA.

Focusing: Separate coarse and double-lever type

fine adjustment, pre-set autofocus stop screw.

Illumination: Plano-concave mirror with mount to the plane base.

Condenser: 1.25 NA Abbe type with iris diaphragm and swingout filter holder, a blue filter is stored in another case, condenser carrier by spiral sleeve movement.

Nosepiece: Regular type triple for No.1 series.
Regular type quadruple for No.2 series.

Accessories: Blue filter, immersion oil, eyepiece dust cap, vinyl dust cover, wooden cabinet, lock and keys.
