## Date Mark™ Electronic Stamper

**Easily keep track of every document**

- Displays day of week, month, and year
- Programmable security code prevents tampering of time and date settings

This versatile, easy-to-use Date Mark stamper prints information directly onto memos, research papers, laboratory documents, industrial plans, blueprints, or schematics. Press down and automatically print any combination of date, time, and seven different status messages: IN, OUT, PAID, FILE, REF, CMFD, and RCVD. Prints four- or six-digit sequential numbers as part of the date/time message, which makes it easy to identify and organize any documents. Stamper is powered by one lithium battery (included) and four AA batteries (not included).

**65530-56**

### Ordering Information

| Catalog number | Description | Price |
|---|---|---|
| KH-65530-56 | Date Mark electronic stamper | |

**KH-65530-58** Replacement ink
**KH-09376-01** Batteries; 1.5 V, AA. Pack of 4

## Embossing Labelmakers

**Industrial strength labelmakers emboss metal and vinyl tapes**

- Metal tapes withstand corrosive environments

**Metal Tape Embosser 65530-44** is constructed of heavy-duty cast aluminum. Labelmaker features a built-in hole punch which produces a ³⁄₃₂" hole for tacking or affixing labels with wire. Characters are ³⁄₁₆" high embossed on ½" tape. Character wheel has ⅛" high horizontal letters. Embosser can use either metal or vinyl tapes—order tapes with or without adhesive at right.

**Vinyl Tape Embosser 65532-46** is constructed of durable cycolac plastic and features forward and reverse tape control. This embosser uses only vinyl tapes.

**What's included:** Model 65530-44 includes one ½" non-adhesive aluminum tape and ½" black vinyl tape. Model 65532-46 includes one ½" black tape and 0.200" high horizontal character wheel.

**New**

### Specifications & Ordering Information for labelmakers

| Catalog number | Type | Max tape size | Price |
|---|---|---|---|
| KH-65530-44 | Metal tape embosser | ½" | |
| KH-65532-46 | Vinyl tape embosser | | |

### Label Tapes

| Catalog number | Type | Label width | Roll length | Price/rl |
|---|---|---|---|---|
| KH-65530-40 | Black vinyl | ½" | 12 ft | |
| KH-65530-42 | Red vinyl | | | |
| KH-65530-46 | Aluminum, adhesive | ½" | 12 ft | |
| KH-65530-48 | Aluminum, nonadhesive | | 16 ft | |
| KH-65530-50 | Stainless steel, nonadhesive | | 21 ft | |

## RhinoPRO 5000 Industrial Labelmakers

**Heavy-duty labelmaker designed for electrical and process engineers**

- Use with tubing and hose
- Print speed is ½" per second

This high-performance system combines an affordable, easy-to-use printer with labels developed for labeling process equipment, instruments, pumps, racks, enclosures, and infrastructure such as pipes and controls. Label maker has hotkeys for the most requested label formats and functions. Unique wrap mode lets you select by tubing or hose size, wire gauge size, coax size, or cable type.

**What's included:** Model 65530-62 includes a plastic case, AC adapter, two rolls of ¾" white tape (one nylon and one polyester), and six AA batteries. Model 65530-64 includes one roll of ¾" white nylon tape. Requires 6 AA batteries (not included) or optional AC adapter.

**New**
