

SPECIFICATIONS

SDZ-P

Twin zooming objective.			
From 3.5X to 180X depending on eyepiece and auxiliary objective lens used.			
45° from vertical			
Rotatable 360°			
Wide field HWF10X; optional 15X, 20X. All eyepieces accept 25mm diameter eyepiece graticules.			
	SP2.5X and 5X		SP2.5X and 5X
Erect-unreversed image, convergent angle 12°, interpupillary distance from 51mm to 75mm, both eyepiece tubes with diopter adjustable. (±5 diopters)			
0.7X - 4.5X with 6.5: 1 zoom ratio			
0.5X, 0.75X, 1.5X and 2.0X			
Rack-and-pinion system, coarse focusing with pillar clamp, coarse adjustment approx. 49mm.			
86mm without auxiliary lens			
Interchangeable clear, and black/white			
Pillar pla	Pillar stand with built-in transformer for 6V 1.2A transmitted and flexible incident illumination. Both of the illuminators may be used individually or simultaneously.
