Amerex Gyromax™ Benchtop Incubator Shaker Series**Features** *(Continued)*

The AMESK767/767R accommodates a 30 x 18 inch (W x D) platform while the AMESK777/777R, with a 38 x 24 inch (W x D) platform, offers the most capacity among all chest type incubator shakers in the marketplace. For example, they can accommodate 24 x 1 L, 15 x 2 L, or 6 x 6 L flasks. In the refrigerated models AMESK767R and AMESK777R, a chamber temperature as low as 4° C can be maintained.

Accessories

Optional accessories include platforms, clamps, full and custom spring racks, microtiter plate holders and additional shelves. Platform holes are drilled to accommodate the different clamps purchased.

Spring racks are designed for holding tubes in a horizontal, angled, or upright position. They can also be used to hold flasks up to 1-liter without clamps. The racks consist of a 2-tiered grid of stainless steel springs. The distance between the two grids is adjustable so as to accommodate tubes and flasks of different heights. The spring racks are fastened onto the platform by four screws.

Custom spring racks (photo on Left) allow for a combination of large flasks, microtiter plates and tubes on a given platform.
