62204-00

Water-Resistant Labels

Plastic overlay permanently protects the label from splashes or high-humidity environments. Fill out the label using a pen, pencil, or marker. Not waterproof; will peel off if submerged in water.

Cryogenic Labels

- Labels are chemically resistant and adhere to all plastics without cracking, peeling, or degrading
- Perfect for cryogenic storage and can take the heat as well— withstand temperatures from -196 to 150°C (-321 to 302°F)

Labels withstand conventional and cryogenic storage (vapor and liquid phase nitrogen storage) to -196°C, boiling water baths to 100°C (212°F), and dry heat up to 150°C (302°F). Polyolefin labels adhere to all plastics, glass, and metals. Resist detergents, oils, solvents, and caustic agents without peeling or falling off. **Note:** Do not apply to moist or siliconized tubes.

Cryo-Babies™ and Cryo-Tags™ Labels

Cryo-Babies (19/32"W x 1/2"H)		Cryo-Tags (11/2"W x 3/4"H)		Color	Price/rl
